Dr. Karen Ellis, PDC Chair
Dr. Will Hine
Dr. Blessing Ibikunle-Salami
Dr. Audrey Kyle

Midwest Dental Assembly

Three days of LIVE CE for dentists, hygienists and assistants, including required topics and enhanced learning.

On Demand Webinars

Choose from a wide range of topics and earn CE credits, anywhere and anytime you want.

FREE E-Learning Series

Our monthly E-Learning Series is FREE and exclusive to IDA members. They are worth 1 LIVE credit each.

IDA INDIANA DENTAL
association

CE for Dental Professionals

CE Available in a Variety of Formats

Live, online, on-demand, self-study: IDA offers CE in a variety of formats to suit busy schedules and all learning styles.

State and Federal Compliance

All of IDA's CE offerings can count toward state and federal guidelines for dentists and hygienists, including required topics.

CERP and ISBD Approved Content

Don't waste your time and money on CE that won't count toward your license renewal. IDA is an approved CE provider by ADA CERP and the Indiana State Board of Dentistry.

100 CE HOURS

- Organized by **volunteer dentists** on the IDA's Professional Development Committee
- CE is available for **dentists** and **dental office team members**
- IDA is an **approved CE provider** by the Indiana State Board of Dentistry and ADA CERP.

Professional recognition at the 2026 Midwest Dental Assembly. See page 18 for details on the 2027 MDA in Indianapolis.

ADA C·E·R·P®

Continuing Education Recognition Program

ADA CERP is a service of the American Dental Association assisting dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Indiana Dental Association designates each activity for a specified number of continuing education credits.

INDIANA CE

Licensure cycle: March 2, 2026 - March 1, 2028

Important notes regarding CE approval:

- All continuing education courses must be provided by an organization or entity approved by the Indiana State Board of Dentistry (ISBD) in order to apply toward the licensure credit.
- ADA, IDA and local component CE credits are all approved by the Indiana State Board of Dentistry.
- You receive 1 CE hour per state or national meeting you attend.
- Lecture credits are issued 1 hour per hour of attendance.
- Workshop credits are issued 2 hours per hour of participation.
- For both dentists and hygienists, **half of all CE hours must be live**. Online courses are considered live if there is real-time interaction between the instructor and the participants.

Basic CE Requirements for Dentists (at least 20 hours total)

- Indiana Ethics, Professional Responsibility & Jurisprudence (2 credit hours)
- Practice Management (not required, but a maximum of 5 credit hours can be applied in this category)
- Annual HIPAA Training as a Federal mandate**
- Basic Life Support certification is required for dentists who administer vaccines or have sedation permits. In addition, many professional liability carriers require BLS certification.
- Annual OSHA/Infection Control Training as a Federal mandate**

Basic CE Requirements for Hygienists (at least 19 hours total)

- Indiana Ethics, Professional Responsibility & Jurisprudence (2 credit hours)
- Practice Management (not required, but a maximum of 5 credit hours can be applied in this category)
- Annual HIPAA Training as a Federal mandate**
- Basic Life Support certification
- Annual OSHA/Infection Control Training as a Federal mandate**

*** OSHA and HIPAA training are required by federal mandate, but hours can also apply toward Indiana CE requirements. No specific number of hours is specified for these mandates.*

Look for these
approved seals
when choosing
your CE

ADA C.E.R.P.[®]
Continuing Education Recognition Program

CE Designed by Dentists, for Dentists

Dedicated to high-quality CE, the IDA Professional Development Committee works hard to offer a wide range of course options. Both the Indiana State Board of Dentistry and the American Dental Association Continuing Education Recognition Program (ADA CERP) recognize IDA as an approved CE provider.

All clinical and practice management classes taken through the IDA meet licensure requirements. Make sure your CE counts. View licensure requirements at www.in.gov/pla/professions/dentistry-home

OSHA training is federally mandated. **See page 5** for specific requirements.

OSHA Compliance and Infection Prevention Practices (Lecture)

The goal of this lecture is to help create a safe working environment for dental professionals. The keynote topics include exposure control, infection prevention, post exposure management protocols and record keeping. Learning objectives include:

- Understand the risk of exposure to bloodborne pathogens and hazardous chemicals in the workplace.
- Gain insight on use, storage, appropriate care and safe disposal of personal protective equipment (PPE).
- Acquire knowledge of and correct use of safety data sheets (SDS).
- Learn the importance of an emergency preparedness action plan.

Basic Life Support Recertification (Workshop)

The goal of the American Safety and Health Institutes BLS for Healthcare Providers and Professional Rescuers is to provide high quality training in performing CPR both as a single rescuer and as part of a rescue team for adults, children and infants. This lecture/hands-on workshop conforms to the American Heart Association's guidelines for cardiopulmonary resuscitation and emergency cardiovascular care. Learning objectives include:

- Recognize and assess the need for CPR.
- Understand and demonstrate CPR and AED use.
- Pass a skills check off and written exam.
- Basic life support is required for hygienists and is recommended for dentists by most professional liability insurance carriers.

About the Speakers

Kay Maddox, R.N. is a graduate of the Indiana University School of Nursing and has practiced in Indiana for 50 years. She serves as a trainer on two Ivy Tech State College campuses, and is a member of the regional faculty for Indiana University Ball Memorial Hospitals. Kay is also an instructor for the American Safety & Health Institute. She has lectured to the dental community in Indiana for over 30 years regarding OSHA compliance. She can be reached at 765-730-3085 or maddoxkay@hotmail.com.

Jay Williamson is both an American Heart Association and American Safety & Health Institute instructor. He has over 20 years of experience in instructing CPR, first aid, universal precautions and many other topics. He has trained in healthcare, childcare, industrial and educational settings and is the owner of On-Site Health & Safety Training Service. He can be reached at 765-730-3085 or onsitehst@gmail.com.

Disclaimer: Neither presenter has a significant financial interest in products or services to be discussed in these presentations.

CENTER FOR EXCELLENCE

ALL SESSIONS
HELD AT
EMBASSY SUITES
IN PLAINFIELD

➤ **Friday, May 14** (Lecture, 5 credits) **Dr. Jonelle Anamelechi**

Morning session: Pediatric Dentistry Unpacked from A-Z: Prevention, Behavior, Trauma, Airway, and More

- Identify key milestones in pediatric oral growth and development
- Apply prevention-focused strategies for infants, children, and adolescents
- Use practical behavior guidance techniques during pediatric visits
- Recognize and manage common pediatric restorative and trauma situations
- Identify airway, habit, and developmental red flags
- Determine when to monitor, treat, co-manage, or refer

Afternoon session: Growth and Development Through the Eyes of a Pediatric Dentist: Feed, Speak, Breathe, Smile

- Discuss the dentist's role in the pre-orthodontic phase
- Discuss the holistic evaluation of a child beyond the teeth in growth and development
- Provide a toolkit for the dental team evaluation and treatment of the growing child

Friday, October 29 (Lecture, 5 credits)

Dr. Lauren Yasuda Rainey

Morning session: Facing your Fears: How to Slay Class II Composites

- Re-evaluating your preparation design, and encouraging participants to think beyond the box
- How to troubleshoot common post-op issues with class II composites
- Understand how your patient demographic may play a role in materials selection

Afternoon session: Please Doc, Not Another Crown! Modern Full-Coverage Alternatives

- Learn when it is/is not appropriate to use composite for cuspal coverage
- Understand prep design modifications for successful composite outcomes
- Build confidence in treating dental emergencies without reliance on lab or milled restorations
- Increase patient acceptance for minimally invasive treatment

Saturday, October 30 (Workshop, 8 credits)

Dr. Lauren Yasuda Rainey

8 a.m.-noon Don't Be Obtuse: Confidently Treat the Black Triangle

- Understand the common etiologic factors of unsightly spaces at the gingival level
- Realize the treatment options, and understand the benefits of additive dentistry to close black triangle spaces
- Consider the pros and cons of alternatives to restorative dentistry
- Review techniques for closing black triangles, and not just in the esthetic zone

About Dr. Jonelle Anamelechi

Dr. Jonelle Anamelechi is a board-certified pediatric dentist, CEO of Children's Choice Pediatric Dentistry and Orthodontic, Dental Director for Thrive House, and best-selling author in the D.C. metro area. She has been named a top doctor in Family Magazine four years in a row and has been featured in The New York Times, Dentaltown, NBC, ABC and CBS News. She is also a contributing author for Health in Her Hue and Dentaltown. Dr. Anamelechi serves as faculty of Children's National Hospital and MedStar Georgetown University Hospital.

Dr. Anamelechi's areas of expertise come from years of training, including laser dentistry, maternal and child health, dental trauma, and growth and development. She graduated from Duke University and the University of North Carolina Schools of Dentistry and Public Health. After graduating, Dr. Anamelechi completed the specialized Pediatric Dental Residency Program at St. Joseph's Regional Medical Center.

About Dr. Lauren Yasuda Rainey

Dr. Lauren Yasuda Rainey is a graduate of the University of the Pacific, Arthur A Dugoni School of Dentistry and completed a general practice residency at Tufts University School of Dental Medicine. At Tufts she was introduced to the use of surgical microscopes for restorative care, which she continues to use today. In addition to clinical practice, Dr. Rainey began teaching at the Dugoni School of Dentistry in the Department of Reconstructive Dental Sciences and the Department of Dental Practice. There she taught both lectures and hands-on coursework in teledentistry, pre-clinical fixed and direct restorative and local anesthesia administration.

Dr. Rainey teaches direct composite restorative programs including black triangle closures, predictable Class II techniques and is an advocate for using composite resin for crown alternatives wherever possible. She teaches dentists in the U.S. and Canada, both in-person and in virtual hands-on formats, often using a surgical microscope for enhanced visualization.

Why Choose Us?

Midtown Technology Group is a leader in dental technology. We work with hundreds of dentists throughout the state of Indiana. Our staff is your staff and it shows from day one of our relationship with you, your people, your team and your company. We manage your I.T. to support your patients and your business. Proactively.

HIPAA UPDATE

JANUARY 19
OCTOBER 27
ONLINE

HIPAA training is federally mandated. [See page 5](#) for specific requirements.

HIPAA Update for the Dental Professional (Lecture)

Bring your entire office along to fulfill your annual training requirement for federal HIPAA during our new online, live webinar. This program provides a quick overview of the HIPAA and its various parts, walk through of the dental office applications, review of HIPAA enforcement and most frequently asked questions and concerns. Learning objectives include:

- Review the major sections of HIPAA, including coding, privacy, security, NPI and HITECH
- Understand eight tips for dental office HIPAA compliance
- Review the enforcement of HIPAA, including Breach of Notification, Common violations, fines and punishments
- Discuss annual HIPAA Audit requirements

About the Speaker

Jay Dziwlik has been with the Indiana Dental Association since 2000, currently serving as Assistant Executive Director with over 29 years of experience in non-profit association management. Jay is a nationally recognized Certified Association Executive (CAE); holds a graduate MBA and has been recognized as the Indiana Association Professional of the Year by the Indiana Society of Association Executives in 2005 and 2019. Indiana Dental Association awarded Jay the Special Service Award for his work in leadership development and Mission of Mercy charitable dentistry project.

E-LEARNING BUSINESS SERIES

Our E-Learning Business Series is a **FREE, MEMBERS-ONLY BENEFIT**. Each lecture helps our members and their practices focus on the business of dentistry. All of the companies represented below provide commercial support to the IDA. Registration and course information are available by visiting www.indental.org/CE. Check your email for updates to programming as well. Speakers, topics and lecture objectives are included below.

January 28

Indiana Dental Survey Results and Industry Update

Matt Howard and Jill Moore, Blue & Co.

- Provide an executive summary of the 2026 Indiana Dental Survey.
- Practical advice for buyers and sellers in the Indiana markets.
- Practice management opportunities and tax environment updates.

February 18

Critical IT Infrastructure Tools Your Practice MUST Have (to survive a cyber event)

Doug Eckhart, Midtown Technology

- Key tools
- Essential plans, policies, and procedures
- Cyber Insurance and Business Continuity

June 17

Biting Back: Defending Against Dental Malpractice

Ginger Kelley, Practice Protection

- Understanding what contributes to defending or settling dental claims
- Implementing strategies to reduce the risk of a claim
- Using claims experience to improve processes and patient safety

July 22

Retirement Plan Checkup: Is Your Plan Working as Hard as You Are?

Tom Ackmann, SYM Financial Advisors

- Assess the health of your retirement plan and benchmark key features.
- Explore strategies to attract and retain employees through retirement benefits.
- Understand plan design alternatives that can improve retirement savings outcomes.
- Create an action plan that supports the long-term success of your employees and your practice

August 19

Safeguarding Your Assets: Strategies for the Modern Dental Professional

Mike Webb, Legally Mine

- Identify common legal risks facing dental professionals and dental practice owners.
- Compare legal structures and risk management strategies designed to protect personal and professional assets.
- Evaluate proactive asset-protection strategies that may help reduce exposure to lawsuits and safeguard personal and practice assets.

October 21

The Insurance Check-Up You Need

Jonathan Mayo, IDA Insurance Services

- The three “must-have” insurance endorsements
- Employee recruitment and retention: how to leverage employee benefits AND what are your peers doing?
- Are you prepared for a work comp claim?

E-LEARNING SERIES

The Professional Development Committee is thrilled to continue offering this **FREE, MEMBERS-ONLY BENEFIT**. The E-Learning Series runs live at 12 p.m. EST for 1 LIVE credit hour. Topics are a good variety of clinical, practice management and even personal development. Registration information is available by visiting www.indental.org/CE. Check your email for updates to programming as well. Speakers, topics and lecture objectives are listed below.

January 7

Dental Protocols for Medically Compromised Children

Dr. Juan Yepes

- Understand the importance of dental management.
- Treating medically compromised children.
- Learn the most common dental protocols for medically compromised children.

February 4

Handling Patient Complaints with Five Star Hotel Service

Jay Dziwlik, MBA, CAE

- Understand that complaints are feedback for improving your practice and your patient relationships.
- Learn and apply five steps to handling patient complaints.
- Learn a mindset, listening skills and responses that diffuse complaint situations.

March 4

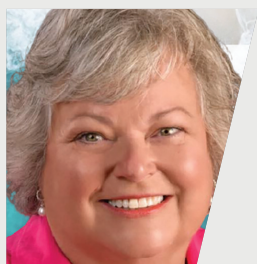

Beyond the Crossbite: Modern Approaches to Maxillary Expansion

Dr. Rob Holland

- Understand maxillary transverse deficiency.
- Evaluate maxillary expansion in the growing patient.
- Explore maxillary expansion in the adult patient.

April 1

Dental Coding and Documentation

Dilaine Gloege

- Recognize common coding errors.
- Identify pitfalls of clinical documentation.
- Implement the S.O.A.P. Method.
- Learn the most common dental protocols for medically compromised children.

May 6

Craniofacial Pain: How Physical Therapy Can Improve Patient Outcomes with TMD and Other Stomatognathic Pain

Molly Mattingly, DHS, MPT, CMTPT

- Evaluation of the craniofacial system.
- Understanding various causes of craniofacial pain.
- Insight into physical therapy techniques to quell craniofacial pain, improve function and create ease of movement.

June 3

Updates from the IU School of Dentistry

Dr. Carol Ann Murdoch-Kinch

- Be aware of national trends in dental education.
- Be familiar with recent progress and achievements from the IUSD DDS and allied dental programs enrollment.
- Understand future priorities for IUSD.

July 8

The Great Pretenders: When Benign-Looking Oral Lesions Aren't What They Seem

Dr. Angela Ritchie

- Recognize oral lesions in which deceptively benign clinical features may mask dysplasia, malignancy or other significant disease.
- Identify clinical scenarios in which biopsy is indicated despite a lesion's innocuous or nonsuspicious appearance.
- Apply a systematic approach to biopsy decision-making, including appropriate lesion selection, biopsy technique, and submission of relevant clinical information to optimize pathologic diagnosis.

August 5

Mental Health Medications and Dental Implications

Kim Sanders, PharmD

- Recognize commonly prescribed medications for mental health conditions and their potential oral health implications.
- Apply updated treatment guidelines for common mental health conditions to anticipate medication-related challenges in dental care.
- Develop strategies for effective communication and care coordination with mental health and medical providers to ensure safe and comprehensive dental treatment.

September 2

Leading Change: Advocacy and Public Policy

Shane Springer

- Understand how the legislative process works.
- Understand how different state and federal laws impact your profession.
- Learn how to develop meaningful relationships with your legislators.

October 7

When It Won't Heal: A Practical Approach to Oral Ulcerative Lesions

Dr. Neetha Santosh

- Recognize and categorize common oral ulcerative lesions by etiology.
- Apply a systematic clinical approach to distinguish benign ulcers from those requiring biopsy or referral.
- Formulate an evidence-based treatment plan for common oral ulcerative lesions.

November 4

Why Is It That Some Patients Can Afford a New TV, But Can't Afford a Root Canal?

Dr. Ankur Gupta

- Develop a patient-centered, emotion-based clinical exam.
- Understand the psychological barriers preventing patients from moving forward with treatment.
- Discover the value in starting the new patient interview during the initial phone call.
- Return to the office the next day with several actionable tools that will get your patients to say "yes" to complex full mouth treatment.

December 2

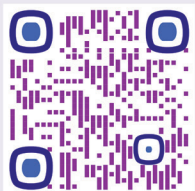

Calm Is Contagious: How Regulated Leaders Build Resilient Teams

Leslie Flowers

- Explain how a leader's stress response, emotional regulation, and communication style influence team morale, psychological safety, and performance.
- Demonstrate at least two evidence-based self-regulation techniques that dental leaders can use to remain calm, focused, and responsive during challenging situations.
- Apply practical leadership and communication strategies that reduce workplace reactivity, strengthen team resilience, and create a more supportive practice culture.

HOW ARE WE DIFFERENT?

PracticeProtection was created to provide the ultimate solution for the protection of America's dental professionals and their practices. Our philosophy of disciplined underwriting leads to fewer claims and less risk, creates better financial results, and allows us to provide lower rates and consistent pricing.

We are dedicated to the prevention of claims through ongoing risk management services as well as the provision of superior professional liability coverage with responsive and aggressive defense of our insureds.

WHY WE ARE THE BEST OPTION FOR YOU

-  **93%** of claims resolved with no indemnity paid
-  **98%** retention of insureds
-  **22%** average savings to you
-  **20 years** of defending healthcare providers
-  Receive protection from digital threats with our Cyber Liability Coverage.

OUR CORE PRINCIPLES

PREVENT

Get access to many free and discounted member benefits.

PROTECT

We are committed to vigorously fighting every unjust lawsuit filed against our insureds.

REWARD

Stop paying too much for insurance and invest the savings into your practice.
