

Continuing Education Catalog 2026

SPECIAL THANKS

A special thank you to the Professional Development Committee and Midwest Dental Assembly Subcommittee for their hard work, creativity and thoughtfulness in making continued learning more relevant to members and their teams. For feedback on programming, email Meetings@INDental.org or follow us on Facebook, X and Instagram. Thank you!

Professional Development Committee

Dr. Karen Ellis, Chair
Dr. Ashley Clark
Dr. Lesley Gilbert
Dr. Will Hine, Consultant
Dr. Angela Ritchie
Dr. Magdalyn Thomas
Dr. Alex Voris
Dr. Ryan Zimmerman

Midwest Dental Assembly Subcommittee

Dr. Amanda Miller, Chair
Dr. Tom Blake, Consultant
Dr. Benjamin Clinkenbeard, Consultant
Dr. Will Hine
Dr. Audrey Kyle
Dr. Chad Leighty, Consultant
Jamee Lock, Consultant

MISSION: The Professional Development Committee is charged with enhancing the professional development of IDA members and their dental teams through continuing education, networking opportunities and conducting IDA related event programming.

Midwest Dental Assembly

Three days of LIVE CE for dentists, hygienists and assistants, including required topics and enhanced learning.

On Demand Webinars

Choose from a wide range of topics and earn CE credits, anywhere and anytime you want.

FREE E-Learning Series

Our monthly E-Learning Series is FREE and exclusive to IDA members. They are worth 1 LIVE credit each.

Courses in Required Topics

IDA offers live CE in state and federal required topics, including ethics, OSHA/BLS and HIPAA.

IDA INDIANA DENTAL
association

CE for Dental Professionals

CE Available in a Variety of Formats

Live, online, on-demand, self-study: IDA offers CE in a variety of formats to suit busy schedules and all learning styles.

State and Federal Compliance

All of IDA's CE offerings can count toward state and federal guidelines for dentists and hygienists.

CERP and ISBD Approved Content

Don't waste your time and money on CE that won't count toward your license renewal. All of IDA's CE is approved by ADA CERP and the Indiana State Board of Dentistry.

100

 CE HOURS

- Organized by **volunteer dentists** on the IDA's Professional Development Committee
- CE is available for **dentists** and **dental office team members**
- All courses have been **approved** by the Indiana State Board of Dentistry and ADA CERP.

ADA CERP®
Continuing Education Recognition Program

ADA CERP is a service of the American Dental Association assisting dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Indiana Dental Association designates each activity for a specified number of continuing education credits.

INDIANA CE REQUIREMENTS

Licensure cycles: March 2, 2024 - March 1, 2026
March 2, 2026 - March 1, 2028

Important notes regarding CE approval:

- All continuing education courses must be approved by the Indiana State Board of Dentistry (ISBD) in order to apply toward the licensure credit. ADA, IDA and local component CE are recognized.
- ADA, IDA and local component CE credits are all approved by the Indiana State Board of Dentistry.
- You receive one CE hour per state or national meeting you attend.
- Lecture credits are issued one hour per every one hour of attendance.
- Workshop credits are issued two hours per every one hour of participation.
- For both dentists and hygienists, **half of all CE hours must be live**. Online courses are considered live if there is real-time interaction between the instructor and the participants.

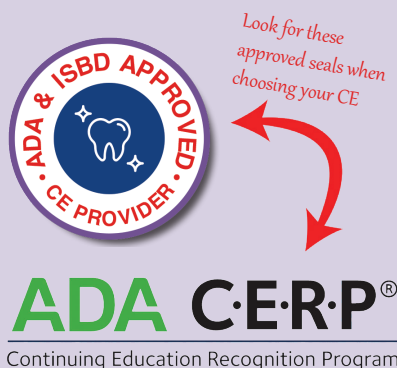

Basic CE Requirements for Dentists (at least 20 hours total)

- Indiana Ethics, Professional Responsibility & Jurisprudence (2 credit hours)
- Practice Management (not required, but a maximum of 5 credit hours can be applied in this category)
- Annual HIPAA Training as a Federal mandate**
- Basic Life Support certification is required for dentists who administer vaccines. In addition, many professional liability carriers require BLS certification.
- Opioid Prescribing and Abuse: The Indiana requirement has sunsetted as of July 2025, but the federal MATE Act mandates 8 hours of opioid CE for dentists who renew their DEA registration between 2023 and 2026. These hours can be applied to the Indiana 20 hour CE requirement.
- Annual OSHA/Infection Control Training as a Federal mandate**

Basic CE Requirements for Hygienists (at least 19 hours total)

- Indiana Ethics, Professional Responsibility & Jurisprudence (2 credit hours)
- Practice Management (not required, but a maximum of 5 credit hours can be applied in this category)
- Annual HIPAA Training as a Federal mandate**
- Basic Life Support certification
- Annual OSHA/Infection Control Training as a Federal mandate**

*** OSHA and HIPAA training are required by federal mandate, but hours can also apply toward Indiana CE requirements. No specific number of hours is specified for these mandates.*

CE Designed by Dentists, for Dentists

Dedicated to high-quality CE, the IDA Professional Development Committee works hard to offer a wide range of course options that are approved by the Indiana State Board of Dentistry and the American Dental Association Continuing Education Recognition Program (ADA CERP).

All classes taken through the IDA meet licensure requirements. Make sure your CE counts. View licensure requirements at www.in.gov/pla/professions/dentistry-home

SAVE YOUR SYSTEMS AND YOUR SANITY

Experience With **Dental Software**

- Extensive experience supporting dental offices
- Practice management software installation, upgrades and troubleshooting
- Digital integration experience across a wide array of vendors

Systems and **Security**

- Encrypted email
- Secure local and cloud backups
- Server and workstation installation, support and maintenance
- Implementation and project coordination and management

Upgrades and **Solutions**

- Comprehensive support arrangements
- Firewalls, antivirus, and other security needs
- Business continuity and disaster planning/recovery

**MIDTOWN
TECHNOLOGY
GROUP**

 317-572-8369

 www.midtowntg.com

Why Choose Us?

Midtown Technology Group is a leader in dental technology. We work with hundreds of dentists throughout the state of Indiana. Our staff is your staff and it shows from day one of our relationship with you, your people, your team and your company. We manage your I.T. to support your patients and your business. Proactively.

WHEN WAS THE LAST TIME YOU EXAMINED YOUR MALPRACTICE INSURANCE OPTIONS?

WHY WE ARE THE BEST OPTION FOR YOU

- 93% of claims resolved with no indemnity paid
- 98% retention of insureds
- 25% average savings to you
- 13+ years of defending healthcare providers
- Indiana-Owned
- Receive protection from digital threats with our Cyber Liability Coverage.

HOW ARE WE DIFFERENT?

PracticeProtection was created to provide the ultimate solution for the protection of America's dental professionals and their practices. Our philosophy of disciplined underwriting leads to fewer claims and less risk, creates better financial results, and allows us to provide lower rates and consistent pricing.

We are dedicated to the prevention of claims through ongoing risk management services as well as the provision of superior professional liability coverage with responsive and aggressive defense of our insureds.

OUR CORE PRINCIPLES

PREVENT

Get access to many free and discounted member benefits

PROTECT

We are committed to vigorously fighting every unjust lawsuit filed against our insureds

REWARD

Stop paying too much for insurance and invest the savings into your practice.

At PracticeProtection, you are not just buying insurance, you are buying a promise: FOR US TO DEFEND, PROTECT, AND STAND BY YOU.

OSHA/BLS RECERTIFICATION

OSHA training is federally mandated. **See page 4** for specific requirements.

OSHA Compliance and Infection Prevention Practices

The goal of this lecture is to help create a safe working environment for dental professionals. The keynote topics include exposure control, infection prevention, post exposure management protocols and record keeping. Learning objectives include:

- Understand the risk of exposure to bloodborne pathogens and hazardous chemicals in the workplace.
- Gain insight on use, storage, appropriate care and safe disposal of personal protective equipment (PPE).
- Acquire knowledge of and correct use of safety data sheets (SDS).
- Learn the importance of an emergency preparedness action plan.

Basic Life Support Recertification

The goal of the American Safety and Health Institutes BLS for Healthcare Providers and Professional Rescuers is to provide high quality training in performing CPR both as a single rescuer and as part of a rescue team for adults, children and infants. This lecture/hands-on workshop conforms to the American Heart Association's guidelines for cardiopulmonary resuscitation and emergency cardiovascular care. Learning objectives include:

- Recognize and assess the need for CPR.
- Understand and demonstrate CPR and AED use.
- Pass a skills check off and written exam.
- Basic life support is required for hygienists and is recommended for dentists by most professional liability insurance carriers.

About the Speakers

Kay Maddox, R.N. is a graduate of the Indiana University School of Nursing and has practiced in Indiana for 50 years. She serves as a trainer on two Ivy Tech State College campuses, and is a member of the regional faculty for Indiana University Ball Memorial Hospitals. Kay is also an instructor for the American Health & Safety Institute. She has lectured to the dental community in Indiana for over 30 years regarding OSHA compliance. She can be reached at 765-730-3085 or maddoxkay@hotmail.com.

Jay Williamson is both an AHA and ASHI instructor. He has over 20 years of experience in instructing CPR, first aid, universal precautions and many other topics. He has trained in healthcare, childcare, industrial and educational settings and is the owner of On-Site Health & Safety Training Service. He can be reached at 765-730-3085 or onsitehst@gmail.com.

CENTER FOR EXCELLENCE

The IDA is celebrating its eighth year of live seminars presented by the Center for Excellence in Continuing Education. These events continue to advance clinical excellence by offering spring and fall live seminars that host nationally renowned speakers and topics. Our speakers address topics that make a difference to you, your colleagues and your dental teams.

Each lecture includes a light breakfast and lunch and will develop you and your team professionally with **5 LIVE credit hours** for each session.

NEW for 2026: Our fall CFE with Dr. Barrett Andreasen, held alongside the ADA Scientific Session in Indianapolis, will feature a one-day seminar and half-day workshop worth a total of 11 LIVE credit hours.

FRIDAY, MARCH 27

Dr. Ashley Clark

Comprehensive Overview of Oral Pathology (Lecture)

This course will provide the oral health care professional with a comprehensive review of oral pathology. Common entities will be discussed; a particular focus will be made on oral squamous cell carcinoma and prevention of this malignancy.

Objectives:

- Identify potentially malignant disorders
- Discuss common lesions affecting the oral cavity
- Discuss how to manage patients with potentially malignant disorders and common oral pathology

Important Details

Date	Friday, March 27, 2026
Check-In	8-9 a.m. EST
Class Time	9 a.m.-3 p.m. EST
Credits	5 LIVE credit hours
On-Site Lunch	11:45 a.m.-1 p.m. EST
Presenter	Dr. Ashley Clark

Refund Policy

Registrations canceled 14 days prior to the session will be refunded at 50 percent. No refund will be given with less than 14 days notice.

The March Center for Excellence seminar meets at:

Embassy Suites Conference Center
2353 Perry Road, Plainfield

Special Hotel Rates Available

Visit indental.org/CFE to learn about special discounted rates before or after the session.

About Dr. Ashley Clark

Dr. Clark completed her dental school training at Indiana University. She then went to complete an oral pathology residency at University of Florida. Dr. Clark has provided hundreds of continuing education courses, including those for the ADA, Chicago Midwinter, Academy of General Dentistry, National Dental Association, and numerous state dental associations. She is the oral pathology advisor for the Academy of General Dentistry, a board member of Digital Dental Notes and Oral Cancer Cause, and a Fellow of the American College of Dentists and International College of Dentists.

ADA C.E.R.P.[®]
Continuing Education Recognition Program

FRIDAY, OCTOBER 9
SATURDAY, OCTOBER 10

Dr. Barrett Andreassen

Dental Radiology: A Review of 2D Imaging and an Introduction to 3D Interpretation (Lecture, Friday session)

Proper interpretation of our dental imaging is the first step to ensure adequate diagnosis and comprehensive treatment for our patients in dentistry. To further improve our diagnostic abilities, we'll first review the principles of panoramic radiographs, including image formation, anatomy, artifacts, pathology, and limitations of the technology. Building upon this 2D imaging, 3D radiology will then be introduced to provide new insight and unique perspectives into anatomical relationships, pathological findings, and treatments. The concepts of image manipulation, interpretation strategies, and radiographic findings on CBCT scans will be discussed to help clinicians better utilize the 3D imaging that's available. Many cases of pathology and other interesting findings will be reviewed during the course.

Objectives:

- Identify anatomy on panoramic radiographs and understand the relationship to surrounding structures
- Appreciate panoramic image formation principles and its use in diagnosis
- Understand the advancements in panoramic technology, the limitations of panoramic radiographs, and when you need a CBCT
- Learn to navigate through a CBCT scan efficiently and effectively
- Develop a routine for evaluation of the craniofacial structures captured on CBCT scans
- Recognize common pathology in 2D and 3D imaging and their clinical relevance
- Recognize CBCT artifacts, limitations, and common errors
- Understand your liability regarding panoramic and CBCT technology

CBCT Essentials: A Hands-On Workshop for Diagnostic Excellence (Workshop, Saturday session)

This interactive workshop provides clinicians with a practical foundation for reviewing and interpreting cone beam computed tomography (CBCT) scans. Through live demonstrations and hands-on case review, participants will gain confidence in navigating CBCT software, recognizing patient anatomy, understanding image artifacts, and reviewing scans in a consistent, organized manner. Key topics will include CBCT fundamentals, scan orientation, anatomical assessment, and the identification of clinically relevant findings in dental imaging. Designed for dentists and dental specialists, this course emphasizes real-world application and equips attendees with the skills to approach CBCT interpretation with accuracy and consistency.

Objectives:

- Navigate and manipulate CBCT datasets using common software tools
- Review CBCT scans using a consistent, step-by-step approach
- Recognize normal anatomy and common variations
- Identify and describe key pathological findings relevant to general and specialty practice
- Improve diagnostic confidence and communication through structured interpretation

HIPAA UPDATE

HIPAA training is federally mandated. **See page 4** for specific requirements.

HIPAA Update for the Dental Professional (Lecture)

Bring your entire office along to fulfill your annual training requirement for federal HIPAA during our new on- line, live webinar. This program provides a quick overview of the HIPAA and its various parts, walk through of the dental office applications, review of HIPAA enforcement and most frequently asked questions and concerns. Learning objectives include:

- Review the major sections of HIPAA, including coding, privacy, security, NPI and HITECH
- Understand eight tips for dental office HIPAA compliance
- Review the enforcement of HIPAA, including Breach of Notification, Common violations, fines and punishments
- Discuss annual HIPAA Audit requirements

About the Speaker

Jay Dziwlik has been with the Indiana Dental Association since 2000, currently serving as Assistant Executive Director with over 29 years of experience in non-profit association management. Jay is a nationally recognized Certified Association Executive (CAE); holds a graduate MBA and has been recognized as the Indiana Association Professional of the Year by the Indiana Society of Association Executives in 2005 and 2019. Indiana Dental Association awarded Jay the Special Service Award for his work in leadership development and Mission of Mercy charitable dentistry project.

INDIANA ETHICS

Indiana Ethics, Jurisprudence and Professional Responsibility (Lecture)

Dentists and hygienists are invited to join the IDA in a fast-paced, interactive and entertaining program that fulfills your two hour requirement for license renewal. This program will provide an opportunity for testing your ethical knowledge and peer interaction on those “sticky situations” every dental professional faces in practice. IDA has an up-to-date, insightful review of the Indiana Dental Practice Act and rules affecting your practice and patients. You will both learn and enjoy this presentation as you fulfill your Indiana State Board of Dentistry CE requirement.

- Engage in peer-to-peer interaction on dental specific ethical situations
- Review portions of the Indiana statutes and rules that relate to the practice of dentistry and hygiene
- Discuss the principles of ethics and code of professional conduct related to dentistry and hygiene
- Review and draw out applications to some of the professional responsibilities of dentists and hygienists

About the Speaker

Jay Dziwlik has been with the Indiana Dental Association since 2000, currently serving as Assistant Executive Director with over 29 years of experience in non-profit association management. Jay is a nationally recognized Certified Association Executive (CAE); holds a graduate MBA and has been recognized as the Indiana Association Professional of the Year by the Indiana Society of Association Executives in 2005 and 2019. BUSINESS SERIES

Our E-Learning Business Series is a **FREE, MEMBERS-ONLY BENEFIT**. Each lecture helps our members and their practices focus on the business of dentistry. Our 2026 sessions focus on tax strategies, practice marketing, technology, risk management and more. All of the companies represented below provide commercial support to the IDA.

Registration and course information are available by visiting www.indental.org/CE. Check your email for updates to programming as well. Speakers, topics and lecture objectives are included below.

January 22 – Dental Survey Review

Angie Zirkelbach, Blue & Co.

- Blue's Dental Survey review
- Current dental trends
- Current tax updates

July 23 – 10 Payment Insights for Dental Offices: 7 Ways to Save and 3 Mistakes to Avoid

Phil Nieto, Best Card

- Identify cost-saving opportunities in payment processing
- Avoid common payment mistakes so you can spot them before they hurt your bottom line
- How to implement a streamlined payment workflow

February 26 – Beyond the Basics: Strengthening Your Dental Practice Through Strategic Marketing

Shannon Perry, ProSites

- Create an Effective Practice Website
- Leverage Social Media and Online Advertising
- Understand SEO Best Practices to Increase Visibility
- Develop a Comprehensive Digital Marketing Strategy

August 20 – Managing Challenging Patients

Ginger Kelley, Practice Protection

- Understanding options for managing difficult and challenging patients
- How to remediate and when to discharge patients
- Best practices for discharging patients (terminating the dental-patient relationship)
- How to reduce the risk of a professional liability claim associated with abandonment

April 16 – HIPAA Fines and How to Avoid Them

Doug Eckhart, Midtown Technology Group

- How to find out what HHS/OCR is looking for when they do an investigation or an audit
- Review of recent findings and actions
- How to be ahead of the game
- What to do when it all goes wrong

October 15 – Financial Planning for Dental Practice Owners & Potential Owners

Gabriel Tucker, CFP® and Seth Whicker, CFP®, SYM Financial Advisors

- Emphasize, empower and educate dental professionals on financial planning
- Strategic retirement and succession planning

E-LEARNING SERIES

The Professional Development Committee is thrilled to continue offering this **FREE, MEMBERS-ONLY BENEFIT**. The INDental E-Learning Series runs live at 12 p.m. EST for 1 LIVE credit hour. Topics are a good variety of clinical, practice management and even personal development. Registration information is available by visiting www.indental.org/CE. Check your email for updates to programming as well. Speakers, topics and lecture objectives are listed below.

January 8 – State of the ADA

Dr. Manny Chopra, ADA Seventh District Trustee

- Current health of the ADA: membership trends, financial stability and advocacy efforts.
- Efforts to ensure strategic direction, fiscal responsibility and responsiveness to members.
- What the ADA doing for Indiana dentists; reinforcing the partnership between the ADA and the IDA.

February 5 – TMDs Are Complicated: A History of TMD

Dr. Harold Avila

- Attendee will be able to state the two most common symptoms of TMDs.
- Attendee will learn the year of the first recorded treatment for TMDs and what that treatment was.
- Attendee will learn the earliest known TMDs etiology along with Dr. Okeson's current etiologies.

March 5 – Special Care Dentistry: Adult Management, Referral, and Interprofessional Collaboration

Dr. Pam Linder

- Discuss the robust process of referral to an academic healthcare center and how to support a patient locally after care is completed.
- Allow the participant to explore interprofessional collaboration outside the dental operator for the unified goal of patient success
- Introduce the elements of determinants of oral health for Indiana's most vulnerable adult dental patients and how dental professionals can make an impact in their communities

April 2 – Oral Manifestations of Menopause

Dr. Angela Ritchie and Dr. Christine Downey

- Be able to describe oral health symptoms as they relate to menopause.
- Educate patients about the link between menopause and oral health.
- Develop management plans, including preventive care and collaboration with medical providers, to improve overall health outcomes and quality of life.

May 7 – Dental Acid Erosion

Dr. Ryan Zimmerman

- Identify and document types of tooth wear and understand how acid erosion is different than mechanical processes.
- Identify acid erosion etiology and discuss challenges and solutions with patients.
- Understand challenges of prosthetically restoring acid erosion cases.

e-learning](http://www.indental.org/e-learning)

ADA CERP®
Continuing Education Recognition Program

E-LEARNING SERIES

June 4 – Vaccinations in FQHC Dental Clinics: An Upstream Approach to Reducing HPV-Related Cancers

Dr. Isaac Zeckel

- Understand your unique role in HPV-related Cancer Prevention.
- Recognize the impact of integrating vaccination efforts on vaccination rates.
- Learn the first steps to implement HPV vaccinations and how to engage your dental teams.

July 2 – Pediatric Dentistry Tips and Tricks

Dr. Alex Voris

- Understand the types of and indications for space maintenance.
- Discuss treatment planning direct restorations versus stainless steel crowns.
- Fluoride Review.

August 6 – To Save or Not to Save: A Full Arch Consideration

Dr. Aek Phasuk

- Identify and assess hopeless teeth within the context of full arch rehabilitation.
- Apply strategic treatment sequencing for phased extractions and prosthetic management in full arch cases.
- Integrate interdisciplinary considerations in decision-making.

September 3 – The Advent of 3D-Printed Digital Dentures

Dr. Wei-Shao Lin

- Compare traditional denture fabrication methods with digital advancements.
- Explore innovative 3D-printing systems, emphasizing design principles and practical applications.
- Evaluate the patient-centric advantages of 3D-printed dentures.

October 1 – Atypical Dental Pain

Dr. Max Di Giosia

- Recognize common causes of non odontogenic toothache.
- Identify key diagnostic features and clinical presentations.
- Develop effective management strategies.

November 5 – Appropriate Antibiotic Use in Clinical Dentistry

Dr. Tom Paumier

- Understand when antibiotics are appropriate for extractions, implant placement, bone grafting, periodontal therapy, apical surgery, and treatment for pulpal and periapical infections.
- Understand the risks of antibiotic use.
- Understand which antibiotics are most effective when indicated for use.

December 3 – Reset & Recharge: A Wellness Check for the New Year

Dr. Catherine Murphy

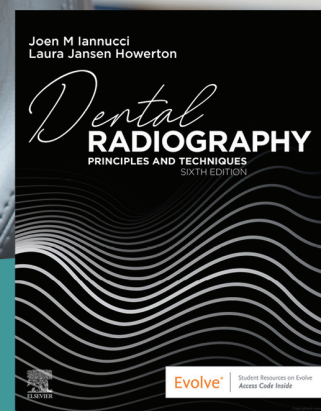

- Recognize signs of stress, burnout and compassion fatigue unique to dentistry.
- Apply practical self care and mindset strategies to strengthen resilience and wellness.
- Design a simple, personalized action plan for balance and renewal in the year ahead.

*The Perfect Upskill for Your Office
Recommended by:*

Stephanie Hano
Assistant, South Bend

I began taking the IDA Dental Radiography Self-Study Certification Program in January of 2025. I enjoyed being able to work at my own pace and take my time to understand the material and even spend extra time on the topics I found more difficult. The program was easy to navigate and even gave a tentative weekly schedule to help me stay on track with my studying. I found the course to be very beneficial in preparing me for the DANB radiology exam and was well equipped with all the tools I needed to pass the exam on the first try!

Dr. Evan Hiple
Dentist, Carmel

I can't speak highly enough about the professional dental assistant radiology program through the IDA. I have personally used the program multiple times to train new dental assistants with great success. This program allows the assistant to work on their career development while earning a paycheck and improving their overall dental IQ at the same time. It is a win-win for everyone. If you have someone eager to get into the dental field with a great personality and the willingness to learn, getting their Indiana dental radiology training through the IDA self-study program is an amazing springboard to a successful future.
